# About us

**Astra Scientific Systems (P) Ltd.** was established in the year of 2004. In the year of 2014 the company has become public limited and changed its name as **Astra Bioscience Ltd.** We are situated at KINFRA Industrial Park Koratty, Thrissur Dist., Kerala, INDIA and having 3 manufacturing units at same Industrial Park.

We are engaged in manufacturing laboratory disposables like Sample containers, disposable test tubes, disposable ESR pipettes, sample cups for analyzers, swab sticks (both plastic & wooden), PAP smear kit, Tips for micropipettes, Petri Plates, Embedding Cassettes, Centrifuge tubes etc. Our products are used in Medical, Research, Academic and Industrial labs. In addition to laboratory consumables, our Bioscience division stays at the forefront of developing new technologies.

**We are certified by ISO 9001-2015, ISO 13485-2016, All our products are CE certified & Our Unit is licensed by CDSCO.**

We are equipped with automated injection moulding machines, sophisticated moulds and automated robotic packing, sealing machines in clean room condition as per the IVD manufacturing guidelines. Our QC labs are equipped with modern facilities and managed by experienced quality control personnel who ensures high quality of products. The checking of quality starts with the incoming raw materials, packing material and in process quality control, packing, storage and ends with final of the product. Strict controls, conducted according to the specific standards, accompany throughout the products. Ongoing quality training ensures that our employees are informed about the applications of our products and the quality required. All products can be traced back to their production period, machine operators and tools, all the way back to the raw materials and packing material used. Apart from pan India operation, we are exporting our products to more than 50 countries.

We value the confidence and trust of our customers and are committed to manufacture highest quality ensuring that needs. Our customer service department is more focused at the customer satisfaction and offers the best possible customer experience.
